

**Charger Plate Clock:**  
Choose from square or circle  
in multiple sizes and colors.

#### MATERIALS:

1. Charger plate (choose from square or circle in multiple sizes and colors)
2. 1/4" Clock movement (includes small set of hands, does not include batteries)
3. Clock hands (optional, choose from a variety of styles, sizes and finishes in gold, silver and black)
4. Numbers (choose from self adhesive Arabic, stickers, rub-ons, or paint your own!)

#### TOOLS:

1. Power drill
2. Ruler and pencil

#### INSTRUCTIONS:

1. Measure and drill a hole in the center of the clock for the movement. Attach movement through the back of the clock and assemble the hands on the front as shown on the back of the package.
2. Measure and place numbers around the outside edge of the clock; starting with 12, 6, 3 and 9.
3. Add the batteries and set the correct time. (there are time setting directions of the back of the movement packaging)
